STORMY EXECUTIVE MEETING.

President Martin to Confer with Lexow Regarding the Captain's Ultimate Fate.

By a vote of 3 to 1 the Police Commissioners, at a special meeting to-day, lecided temporarily to reinstate Capt. Timothy J. Creeden as a Police Com-mander. Unless the Lexow Commit-tee thinks he ought to be punished, he will not again be molested. If Mr. Goff or the Senators come to the conclusion that his insefulness as a Po-lical Captain has ended, he will be al-lowed to ratire on half pay.

Commissioner Sheehan alone voted

egainst romatatement, and in explaining why he epprosed it he made a bitter at-Kerwin, it is understood, was not at first inclined to give the Captain another chance, as he is a stickler for lise-pline, and yielded only on account the possible good it might do in the sy of setting others to come forward ith their stories.

Stormy Executive Meeting.

The meeting at which the resolution was passed did not last more than five minutes. Prior to it, the Commissioners held an executive meeting which was of the stormy order. Things were said and done behind the closed doors which no one was anxiou for the public to hear. Murray took the initiative in insisting that nothing should be done to hamper the Lexow investigation, and that the action of the Board in Creeden's case certainly had done so. Sheehan made no comment on this, but he did insist that Creeden was not a proper man for

Augustus G. Thorns, the policeman who was yesterday arrested on two in-dictments, charging him with perjury and forgery and assisting and abetting ex-Police Capt. Stephenson in the crime of bribery, to-day, at the request of a reporter for "The Evening World," who visited him in the Tombs, decided to make a full confession of his crime and to tell all that he known of any contest. to tell all that he knows of any crooked work or bribery in the Police Depart-Thorne's counsel, Frederick D. Thorne, very properly, would not make the confession to any but one of the Assistant District-Attorneys. "The Evening World" reporter went to Assistant, District-Attorney Lindsay and told him what Thorne had agreed to do. Shortly afterwards Thorne was clos-eted with Assistant District-Attorney Lindsay, and a stenographer, and was not only making a clean breast of the crimes for which he was indicted, but

LONDON, Dec. 16.-The Times this morning publishes a special article, which declares that the history of the cup proves conclusively that in sportsmanlike desire for a fair race Tenn., says the holdest sportsmanlike desire for a fair race at any cost the British champions from time to time have not been behind, but rather before their American rivals.

"The deadlock," says The Field, "seems likely to prevent any matches for the cup in 1895, and, perhaps, at any time, for if Lord Dunraven offered to sain the same short time previously, in a deal in which he transferred his plantation. The men who robbed him undoubtedly saw him receive it. for another trophy this would naturally mean the supersedure of the cup, and would be an effective and unsatisfac-

tory way of obliterating a long train of most disagreeable associations. The very name, America's Cup, chiefly suggests now unfairness and contemptible meanness.

"Under the obnoxious deed a challenger is compelled to ask concessions of fair terms, and under a deal of terimonious criticism for his pains. All this is very repugnant to British yachtsmen, and they ought not to be required to hold a cup which will put the yachtsmen of other nations in a similarly humiliating position."

The Field also publishes an interview with Lord Dunraven, in which the latter says: "I have read that they are anxious for a race. If so, there will be a race. But they have made the position difficult by raising exactly the same point
